

# STUDENT ENGAGEMENT

One of our most important roles as educators is to create an environment where ALL students can learn and be successful.

Work with a team of teachers from multiple schools to combine research-based strategies with implementation, feedback, and coaching. **Hurry, spots are limited!**

Utilize the practice of microteaching and public practice as a vehicle to enhance teaching and learning by exploring the implementation of student engagement strategies to create a classroom culture of “Everyone Does Everything!”

## FALL 2023

### PART 1 Intro & Making Learning Visible

**Sep. 26**

- Valley City

#### The Compelling "Why" - Everyone Does Everything, 2-10 Rule
